Tahiti and Her Islands, also known as French Polynesia, is a paradise in the middle of the South Pacific. Created by volcanoes, these 118 islands offer spectacular scenery, each different from the other. Some are low lying coral islands, whilst others tower with rugged mountainous interiors flowing with cool waterfalls . All however are fringed by beautiful aqua blue coral reefs offering unbelievable diving and snorkelling.

The great hammerhead shark has a wide, thick head with the eyes at the margins. The head is indented at the centre of the "hammer," which is almost rectangular in shape. This shark is grey-brown above with an off-white belly.
